High Valley

Mr. and Mrs. Hammer arrived home Saturday evening after driving across country from Buffalo Hill.

Harry Nunnecker recently started his gasoline outfit; doing his first work for Olaf Olson.

Mr. Hammer and J. B. Johnson were visitors at Carlstadt on Monday.

Seeding in this vicinity is nearly completed. Everyone is looking for a bumper crop.

Bill German and T. E. Nunnecker were callers at J. B. Johnson Tuesday evening.

Mr. and Mrs. T. E. Nunnecker and family were visitors at Mr. and Mrs. Hammer on Sunday.

Miss Hammer and Fern called on Mrs. C. N. Nunnecker Thursday.

We deeply regret the death of our friend and neighbor Hugh Christie.

The attendance at High Valley Sunday school is increasing. Last Sunday there were 32 present.

Russell Dood was breaking on the Greenwood ranch last week.

Johnstone Bros. finished putting in Jack Allen's place last week.

Brutus

S. Hellevang was a Suffield visitor Friday.

Last week was clean-up week at Brutus. The mayor was busy all week seeing that the citizens cleaned their places.

R. E. Jones was in Suffield Friday.

Charlie Gibner is working for Herb Maynard.

B. F. Berryman and S. S. Boyd called on Fred Whitehead Friday evening.

The report in last weeks paper that H. E. Kibball's engine crew were seen smelling all the furrows trying to find a stopcock they had lost, is a mistake, they were only looking for some more hash.

Rodman Bros. have a large force of men and teams at work seeding brother Ed's farm at Royal.

Vance Campbell and Wesley McEwen were Carlstadt visitors Monday.

As we go to press we learn that L. H. McKinnon, who took the morning train to the Hat to get medical advice about his cold, has been detained in the hospital there for a few days treatment.

Farmers and the Financial Aspect of the Proposed Liquor Act

When the farmers of Alberta were asked to sign the petitions to the Legislature asking for the passing of the Liquor Act, or its submission to the people, were they given an opportunity of reading the Act before signing the petitions; or were they told simply that they were signing for an act prohibiting the sale of liquor within the Province? If the latter was the case they signed the petition under an erroneous impression. They did not sign on behalf of a Prohibition Act, pure and simple, but the proposed Liquor Act, which is a very different thing from the root and branch prohibition.

Will the carrying of the Liquor Act give any real benefit to the farmers of Alberta? No! On the contrary, it will impose many hardships not the least serious of which would be increased taxation. Is this a time when the expenditure of the farmer can be increased? The reverse is rather the case. He would be faced, however, with the duty of helping to make up a and also to provide for the increased Provincial expenditure required to carry on the Liquor Act (which would be practically without any revenue for the purpose) and with the lessened demand for barley which would result in lower prices for this grain. The farmers in Alberta were recently urged to grow more barley for export purposes but how can they do this if the home market is crippled?

THURSDAY, MAY 6th, 1915

CARLSTADT and District, speaking agriculturally, is in fine state. Over ninety per cent of the seeding has been completed under most favorable auspices. Many fields already show a remarkable growth. Experts tell us that the season is already two or three weeks advanced over other years.

THE local paper is entitled to every cent's worth of printing that can be given it by the people and local institutions. It is one place in town where every business man, sooner or later, has to come for some favor or other, that will mean dollars to his business, or satisfaction to his social or home life. The local paper is continually giving publicity to matters that will directly benefit your business, and it therefore has a right to expect local patronage: even though it differs with you on many things. The local paper is everybody's friend, and as such, is placed in a position where it can rightfully ask every bit of local support that the people of the community can give it. If you send a job of printing out of town, you are violating a principal which amounts to something more than a mere matter of dollars or cents: everlasting loss to the community.

AN official of the Dominion Department of Agriculture visited Edmonton the other day and stated that it was the intention to enforce strictly the act regarding the branding of dairy butter, which was passed last year. From now on, anyone selling dairy butter in blocks, squares or prints, and wrapped in parchment paper, must have "Dairy Butter" clearly marked on the package or be liable to a fine. It is defined as butter manufactured in a place where the milk or cream of less than fifty cows is manufactured into butter. The underlying principal is protection to the consumer, the honest manufacturer and the honest trader.

BY-LAW

Public notice is hereby given that there has been introduced in the Council of the Rural Municipality of King No. 153, a by-law, of which the following is a short synopsis:

"A by-law to restrain and regulate the running at large and trespassing of animals.

In this by-law unless the context otherwise requires:

(a) "Animal" means any head of cattle, horse, sheep, goat or swine.

(b) "Cattle" means any bull, cow, ox, heifer, steer or calf.

(c) "Horse" means any horse, mare, gelding, colt, filly, ass or mule.

(d) "Sheep" means any ram, ewe, wether or lamb.

(e) "At large" means without being under the control of the owner or possessor, either by being securely tethered or under direct or continual charge of a herder, or by confinement within any building, fence or other enclosure.

(f) "Lawful fence" means such as defined in the Fence Ordinance or in this By-law.

2. Any substantial fence not less than three feet high shall be deemed a lawful fence within the limits of the municipality if it consists:

(a) Of not less than two barbed wires on posts not more than sixty-six feet apart, the lower wire to be not more than two feet from the ground.

(b) Of one or more barbed wires fastened to posts at a height of three feet from the ground, posts to be not more than thirty-three feet apart.

(c) This section shall not apply to any fence immediately surrounding stacks of hay or grain.

3. Any fence immediately surrounding stacks of hay or grain shall be built in accordance with one of the definitions of lawful fence as laid down in the Fence Ordinance, and shall be built at least twenty feet from such stacks.

4. It shall not be lawful for anyone to run at large at any time of the year, on any highway, land or premises within the limits of the municipality.

5. Any person who leaves open any gate or lets down any bars or makes a gap in any fence for the purpose of permitting any animal to trespass, or who otherwise causes any animal to trespass, shall be guilty of an infraction of this By-law.

A copy of the By-law may be seen in each of the following places:

Tide Lake, Brutus and Tripola Post Offices; Helgoland, Rainy Lake, Royal, Fertile Flats, Tide Lake, Polonia, Blue Grass, Golden West and Hoskin Schoolhouses; South West quarter of Section 21-17-9, North West corner of Section 31-16-10, and at the office of the Secretary-treasurer.

And further take notice that unless within thirty days from the publication of this notice at least ten resident electors of the municipality petition the council to submit such By-law to the vote of the resident electors of the municipality the council will proceed to pass the same.

The News has just received a new booklet issued by the Department of Natural Resources of the Canadian Pacific Railway, at Calgary, Alberta, describing the resources and advantages of Alberta, Saskatchewan and Manitoba, and setting forth the terms on which the Company's lands are offered to actual home-makers in these Provinces. The folder contains a vast amount of useful information: such as the averages of all leading grain crops in the three Provinces for a period of years; the average prices for the last five years; the elevator, flour mill and oatmeal mill capacity; statements of temperatures and precipitation; live stock tables; general information covering such points as customs, quarantine and transportation regulations; public worship, school systems, agricultural education, railways facilities, public roads, system of taxation, voting regulations, rural telephone, water supply, system of land survey, cost of implements, building material, harness, furniture, dry goods and clothing, meat and groceries, and the capital necessary for a settler to make a proper start. The booklet is illustrated with 40 photographs of actual farm scenes in Western Canada, and included in it are maps in two colors of Alberta and Saskatchewan. All persons interested in opportunities afforded to home-makers in Western Canada, should make a study of this folder, which may be had free of charge by addressing the:

HOW THE WOMEN

ARE GIVING HELP

A Matter of Intuition—Sustain the Pay Roll by Purchasing "Made-in-Canada" Goods

What are the women of Canada doing about the "Made-in-Canada" movement? As usual, more than meets the eye. There never was a good movement without women in it somewhere. When the women of Canada undertake to put their sanction on the campaign that means prosperity to their husbands, sons and brothers, the success of that campaign is certain. In this case that peculiar quality of women known as intuition, counts for more than all the logic of well-constructed arguments. Women are natural economists—as well as instinctive spenders. When they endorse a policy of buying goods made by Canadians for the sake of Canadian homes, they do it as a matter of plain instinct. You don't have to reason to a woman that it's her duty to support her own cause before anybody else's. She takes it for granted.

All this movement needed to carry it with flying colors to the winning post of national prosperity was the intuitive backing of the intelligent womanhood of Canada. To them it's as obvious as the smile that disarms opposition, or the tears that conquer an enemy. There isn't an intelligent woman in Canada who doesn't stand behind this campaign to boost Canadian industry. Any man who feels doubtful or lukewarm about it had better introduce the subject to his wife. One gleam of her intuitive perception will be a match for all his lame and limping arguments to the contrary. This is no cause that divides families. Buying "Made-in-Canada" goods at a time like this is the one cause that unites both families and communities.

It isn't a matter of buying silks and bric-a-brac...

What keeps the Canadian factory going nowadays is the main part of what you buy every day, and the small items multiplied run into a larger total than the big purchase alone.

CANADIAN DOLLARS NEEDED AT HOME

Everybody Can Help—Where the Wholesale Comes In—The General Welfare of Canada

Keeping the Canadian dollar at home is very much a matter of the wholesale dealer who buys in carload lots.

No matter what retailers and individual consumers may decide to do as a national self-interest campaign, the job is the man who very often controls the situation. The wholesale dealer has a wide-angle vision. He has customers far and wide; no province, but in many, his parish is often as large as his own. His manufacturer, his business is a national scope. To the wholesale the general welfare of Canada is of more direct importance than it is to the retailer of the individual.

Naturally this country looks to the wholesaler to help along the "Made-in-Canada" movement, because it is going to be in his best interests to offer the retailer the goods his customers are demanding, and in his position of buying in carload lots he can do a great deal to help or hinder people in carrying out the "Made-in-Canada" sentiment.

The wholesaler who buys his goods from a foreign country is listing the reservoir leak without pumping into it. Every carload of goods bought outside of Canada means the value of a carload taken away from the purchasing power of the Canadian people, which depends directly on the business done by Canadian factories quite as much as on the proceeds of Canadian farms and mines and fisheries.

We all realize the insanity of killing the goose that lays the golden egg. The golden egg in this case is the ability of the Canadian people to buy goods, and the ability of the Canadian manufacturer to supply them, as well if not better, as cheaply if not more cheaply, than any other nation now competing for business.

Buy an Irrigated Farm

FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE

Irrigation makes the farmer independent of rainfall and insures good crops, not occasionally, but **every year**.

Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures best returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$35 to \$75 per acre, with twenty years' to pay and the privilege of a loan of \$2,000.00 for improvements (6% interest); no principal payment at the end of first and second years and no water rental for first year. Assistance is also given in supplying stock in approved instances.

This is the most liberal offer of irrigated farm land on record

Farmers and Liquor Act

Continued from front page.
plied and there is also a smaller outside demand?

The chief thing which the farmers of Alberta will do well to consider is the effect which the passing of the Liquor Act would have upon their own expenditure. This they can keep right by voting against the Liquor Act which the temperance people have hoodwinked them into supporting under the guise of prohibition.

When farmers, too, go into the towns and villages, they use the hotel accommodation conducted under the existing Liquor License Ordinance. Under the proposed Liquor Act there would be no provision for hotels at all and their supply would be left to the hands of the enterprise of private citizens. This would work a hardship which the promoters of the Liquor Act would do nothing to redress.

Further no farmer, could be prevented from importing liquor from other provinces for beverage purposes under the Act but he would be absolutely prevented from buying liquor in the Province except from a registered druggist and upon a doctor's prescription for purely medicinal purposes. In addition to paying for the liquor he would have to pay the doctor's fee which add materially to the cost of the liquor. Even if he had alcoholic liquors in his own home, he could not administer them to a sick or injured member of his family without having received a doctor's prescription.

All these are matters which the farmer should keep in mind. In every way the effect of the proposed Liquor Act would be to make the farmer dig down deeper into his pocket. He should carefully read over the proposed Liquor Act from start to finish and ascertain what benefits he would receive from it to offset its many disadvantages—The Licensed Victuallers Association, Edmonton, Alberta.

Sleepy Hollow

W. Hoyle, of Lethbridge, has located another homestead in 15-8. The land is being taken up pretty rapidly on account of the nearness to Suffield; and the abundance of water that can be obtained at 8 to 15 feet. This land is best suited for alfalfa, being a sandy loam, as is demonstrated on sec. 15 in this township, by the Canadian Wheatlands.

Mrs. Dorsey had an old fashioned quilting bee and served an elegant dinner to everybody present. Do it again!

Thos. Thompson, of this district, has joined the volunteers for the front at Medicine Hat. Good luck go with you Tom, is the wish of all your friends.

Wm. Kramer has returned from Dakota, better pleased than ever with Peaceful Valley, as his his district is called.

The U. F. A. meeting held in the Helgoland school Saturday night, was a success as far as we can find out; except 'de big feed.'

Harry Jones is busy planting his garden, having returned from Ronolane.

School will open May 5th in the Helgoland district.

HELP YOUR NEIGHBOR TO REGAIN PROSPERITY

What a Nation of Self-helpers Could do—All Are Interested in the Movement

The Kingston "Whig" had an editorial the other day which contains food for thought for all of us. We are all interested in the early return of prosperity, and if each will work along the lines suggested by the Kingston "Whig" there is no doubt that prosperous times will soon be with us again.

"The man that's able to work and is out of work is the kind of man that we are determined to 'take into a busy producer. This is a problem for practical people. We can't afford to leave this problem to the charitable organizations. Canada is a poor land for organized charity. This is no country of stumps. It is a land of self-helpers. Suppose that for every man, woman and child in Canada a hundred dollars were spent every year in buying Canadian goods. Total \$500,000,000. That is more than half the total amount of goods turned out in Canadian factories. That eight hundred millions of goods made, means more than \$100,000,000 paid out in wages. Add that \$100,000,000 to the gross amount of money spent for Canadian goods, and you add enough to keep the machine going as near as possible to a peak load. Bear in mind that every dollar spent for Canadian goods adds at least 20 cents to the amount paid in wages. It means at least twenty cents more to spend for goods made in Canada. The man who gets the wages becomes a partner with the man who buys the goods, to keep up the grant total of goods made by the workers of Canada for Canadians. This is the practical side of self-help. It's the wages paid to the workers that represents the business done in the factories and the prosperity that affects everybody's pocket."

Buying Canadian made goods is not a fad. It's organized common sense. Only foreigners can afford to ignore a policy that means our national prosperity.

BIG STORY, LITTLE TOWN

Concrete Nigitation of 'What the "Made-in-Canada" Idea Means

Some little towns tell big stories about industry. There is one down in Quebec; about thirty miles from Montreal. It's as pretty as a picture and as lively as a Maypole dance, and besides the half-dozen mill-occasional factories that help to keep it booming it has two enormous concerns, each of which spend a story for the average Canadian. One of these marvelous modern factories turns out sewing machines. The patents are held in the United States, but the wages and the profits and the cost of raw materials are paid in Canada. The same machine used to come in over an air mail. Now everything about the machine helps that little town to maintain its hundreds of workers. The wage bill of that factory runs into thousands upon thousands a week. When buying a sewing machine it might be easy to get one made abroad. It might be almost as good a machine as that made in the little town on the Quebec River. The reason that great factory was built at a cost of nearly a quarter of a million dollars was to make goods for Canadian homes by paying the wages of labor and the profits of industry to Canadian. It is a magnificent thing to work. And it is a monument to the economic good sense of Canadians as expressed in the "Made-in-Canada" idea.

IT'S as much the duty and to the advantage of every Canadian to buy goods made in Canada as for a Canadian soldier to fight for his own country instead of going over to the enemy.

Buy Canadian Goods

Why should we consume foreign merchandise in this country when our workers make the same goods? If we buy foreign dry goods, foreign hardware, and foreign foods, when will we in Canada be able to supply our own market? Let us then buy as much as possible of goods made in Canada, and we will keep the money in our own country and relieve the distress of the unemployed.

Picnic on June 3rd, which is a legal holiday, is to be at Tide Lake schoolhouse. There will be all kinds of sports and a good time in general. Everybody is expected to attend, also a basket lunch spread at noon. We would rather see you in your farm clothes than to stay at home. Everybody come and bring their family. Boys remember the dance at night. Watch for the list of sports to be published soon.

The next meeting of the U. F. A. will be Saturday night and all members are requested to be present and bring the ladies.

Royal

A teacher has been hired and school will start in a few days: so oh you kids beware!

Miss Edith Flanders was home from her farm at the Albion, Suffield.

Seeding is almost done in this vicinity except some oats and flax.

Mr. Eccles has quite a crew at work on his farm at Sleepy Hollow. One gasoline plow rig breaking, one team hauling stone and three teams discing, harrowing and drilling. Quite a farm that.

Henry Flanders purchased a cream separator last week, to replace the one lost in the fire last summer.

Floyd Kimball is plowing far east now, and he expects to beat the gas rig too.

The meeting of the U. F. A. Saturday night at Helgoland was poorly attended. But quite a crowd came later for the dance.

J. A. Packer had the misfortune to lose one of his horse's last week.

The rainy season is now on, did you see it Tuesday?

J. C. Anderson has posted notices in regard to pound law recently.

Where can we find work with our teams from now until harvest? We would like to suggest to the Rural Municipality that if they would give the tax payers a chance to work out the back taxes, some of us would be glad to pay it in that way. Then, if we get a failure of crops this year the Municipality will be ahead of the Dominion Government; for it might be a toss up to who gets the homestead this fall.

The wheat fields are beginning to show green now, and the grass has made a fine start: everyone is hopeful for a good crop of both grain and hay.

Chas. Neff has engaged H. E. Kimball to do some breaking on his homestead in 28-10-6.
